

Collaboration

As 3D Donate, the financial and moral contribution of everyone from all over the world will make us stronger so that we can reach larger masses.

We believe that we will carry this effect forward with the cooperation of Municipality and Foundation A person's ability to facilitate his / her daily life and ensure his / her independence from his/her family or relatives and to be peaceful in the geography he / she lives in.

Very important issues such as improving the quality of education and being employed are the main mission of this project. For this reason,we invite all communities we work with for the same purpose to be partners.

We are always trying to make a difference and invite you to learn more and support.
