

Support Us

You can give information about this formation to the individuals in need around you.

- You May have heard about our event before from the needy individual in your neighborhood. This Awareness of yours is very important for us to reach those in need.

You can explain this completely free service to them, and by this way, you can significantly facilitate the lives of those in need.

You can support Design, Printing, Shipping service.

- It's easy to support us. If you know a design program, you can create designs that make life easier, inspired by the designs on our website. You can deliver your files to us at info@3ddonate.com or upload your designs by briefly describing the purpose of use at www.3ddonate.com.

You can be a local supporter of this project in your region.

- As 3D Donate, we use all our facilities. We need your support to be able to act fast and make life easier for more people.
- You may want to do practical studies on how to use the products from our 3D printers. In order to personalize the products we have created based on this idea, you must complete your membership process as a healthcare professional at www.3ddonate.com. In this way, you can provide more support to disadvantaged individuals about how to use the product.

If you own a 3D printer, you can support by printing for requests in your city.

- You can download and print our free designs at www.3ddonate.com. When you support us with this service, you really make our job easier because you reduce our printing time.
- You can enter the "Next Print" list on our website with the products that are printed in your hand and leave it to the cargo company with the code we have created for you.
